Location: Madurai

Phone: 8778769939
Live Project: sql.bigfivecrm.com

PROFESSIONAL SUMMARY

Frontend Developer with **2.8 years** of experience building scalable SPAs and reusable component libraries using **React.js**, JavaScript (ES6+), and Material-UI. Proven track record delivering end-to-end CRM, e-commerce, GRC, and website management modules — from dynamic form systems and lead workflows to data visualizations and REST API integrations. Skilled at translating business requirements into responsive, performant frontend solutions.

WORK EXPERIENCE

CloudTree Technologies — Jr. Software Engineer

Apr 2025 – Present

Live Project: Big Five CRM — <https://sql.bigfivecrm.com>

- Develop and ship CRM, e-commerce, GRC, and website management modules using **React.js** and **Material-UI**, building responsive layouts and reusable component systems.
- Engineered interactive workflow diagrams and dashboards using **React Flow** and **Chart.js**, enabling visual process management for non-technical users.
- Integrated **REST APIs** across all modules — handling JSON payloads, async data flows, and error states for production-grade CRUD operations.
- Built dynamic page layouts, configurable form systems, and automation features adapting to varied client workflows.
- Resolved UI performance bottlenecks using lazy loading, code splitting, and component memoization.
- Managed feature branches, code reviews, and version-controlled deployments via **Git / GitHub**.

Krishna TecBees Services — Software Developer

Oct 2023 – Apr 2025

- Architected core CRM features from scratch using **React.js** — lead management pipelines, conversion workflows, and client-specific business logic.
- Developed quote and invoice generation modules with dynamic templating and data mapping, replacing manual processes for multiple clients.
- Integrated **WhatsApp Business API** into the CRM platform, enabling in-app messaging workflows for sales teams.
- Built a reusable UI component library with configurable form systems, cutting development time on new CRM modules.
- Collaborated with backend engineers on **REST API** design and frontend connectivity for reliable data flow.
- Customized CRM modules per client requirements, translating business specs into production-ready features.

HDFC Bank — Senior Relationship Executive

Dec 2019 – Jan 2021

- Managed customer relationships, banking services, and lead pipelines using CRM tools.
- Handled CRM operations and ensured business conversions through structured follow-up workflows.

SKILLS

Core languages & frameworks	React.js, JavaScript (ES6+), HTML5, CSS3
UI & component libraries	Material-UI, React Flow, Chart.js
Backend integration & data	REST APIs, MySQL, CRUD operations, JSON
Tools & workflow	Git, GitHub, Responsive Design, Performance Optimization
Domain experience	CRM, E-commerce, GRC systems, Website Management

EDUCATION

BE – Electronics & Communication Engineering (ECE)

2010 – 2014

SACS M.A.V.M Engineering College | CGPA: 8.46
